

## PROJECT ARCHITECT

BCA is a small office doing big work! Join us!

We are looking for enthusiastic Architects and Designers to join our team in Bend, Oregon. Be a key team player on variety of projects that include workspace, healthcare, pharmaceutical and biotech laboratories.

The primary role of a Project Architect at BCA is to take responsibility for the design and production of quality Architecture and Construction Documents. This position offers an immediate opportunity to drive new projects from inception to completion with ample support and mentorship!

### Why BCA?

When you join us, you'll be joining a collaborative studio with people passionate about working on unique projects and meaningful design solutions. We are a small, flexible office with accessible leadership, and immediate access to all the natural beauty that Bend, Oregon has to offer.

- Competitive salary and bonus opportunities
- Generous paid time off and Holidays
- Matching 401k Savings plan & Health Insurance benefits
- Financial support in achieving licensure
- Flexible schedules that encourage work/life balance and are sensitive to family and medical needs
- Espresso Machine, Snacks, Beverages, and Happy Hours

### Basic Qualifications

The right candidate will have excellent communication skills, a strong sense of design, and a keen interest in all phases of architectural service.

- Generally, have 4-7 years' experience in commercial work with a balance of design work and construction documents preparation
- Bachelor of Architecture or related field, (no degree? Please still apply and share your background!)
- Revit proficiency and BIM workflows familiarity
- SketchUp and AutoCAD experience

### Desirable Qualifications

- Registered Architect in Oregon (*If registered in another state, willingness to register in Oregon*)
- Enscape, Twinmotion or other rendering experience
- Competence with Building and Accessibility codes analysis and paths to compliance
- Strong knowledge in construction systems, sustainability, project delivery methodologies (IPD), material applications, and manufacturer-supplier appropriateness.
- We're eager to hear of any other unique skillsets you may possess!

If you thrive in a multi – disciplinary environment and would enjoy the benefits of working with a small boutique firm that fosters leadership and professional growth, please apply!
