

Interior Designer

Blaise Cacciola Architect is looking to strengthen and grow our team with a talented Interior Designer. We are looking for someone to work closely with our designers and architects on a variety of projects that include workplace, healthcare, pharma and biotech laboratories.

If you thrive in a multi – disciplinary environment and would enjoy the benefits of working with a small boutique firm that fosters leadership and professional growth submit an application and let's chat.

Qualifications:

- 2-5 years' experience in a commercial design firm, architecture, or related design position.
- Revit and AutoCAD proficiency
- SketchUp, Adobe and Enscape a plus
- Interior Design degree from a CIDA accredited program
- NCIDQ or working towards certification

Key Responsibilities:

- Collaborate with the design team to create innovative design solutions, renderings and graphics.
- Research and assist with selection of finishes and materials and prepare presentations
- Contribute to the production of construction documents including early phase schematic drawings to working plans, elevations and interior details
- Research and assist with the selection of FF&E and accessories packages for project specifications
- Develop and maintain good client, consultant and contractor relationships
- Review shop drawings for design intent
- Assist with sample library upkeep and foster positive vendor relationships
- Manage individual tasks to fit within the overall project schedule

Compensation/Benefits:

- Competitive compensation based on experience
- Paid Time Off and Holidays
- Matching 401K savings plan & Health Insurance Benefits
- Support with exams and licensing
- Flexible and family friendly schedule

Please submit a cover letter and resume in PDF format to admin@bca-architect.com.
